

Deacon Industrial Supply Company, Inc. along with support from Weil McClain hosted their 17th Annual Fishing Trip on Fri. Aug. 15th. The Commercial Heating team at Deacon Industrial coordinates this 8 hour fishing trip each year as a way to give back to their Commercial Heating customers. Jim Antonucci, Product Manager-Heating noted that they had great weather as they left the dock in Cape May, NJ with each fisherman expressing high hopes of returning with some bragging rights.

The trip included twenty three people, including four Deacon Employees, catching everything from flounder and sea bass to even some blue fish.

Longest fish honor went to Jim Gaffney from Five Star Mechanical, with his 24" flounder. Congratulations Jim!
