

Deacon Industrial Supply Company's Project Management capabilities set us apart from other PVF distributors. Our Valve Automation team partners with our customers by providing support throughout the entire project. Deacon's cross functional team receives the customer inquiry, reviews the technical specifications, provides engineering design support, coordinates with multiple

vendors, maintains project schedules, assembly and testing of valve with actuator, delivery of product to the job site and on-site training / support.

Pictured are Deacon's Project Management and Valve Automation Team with both electric and pneumatic actuated valves that are being used in a current ongoing project. Our experienced staff and vast inventory affords us the ability to meet the needs of all of our customers, no matter how great the project. If you have a project that you would like to discuss, please click on the contact us tab of our website, www.deaconind.com and one of our experienced sales associates will reach out to you.

Deacon Industrial Supply Company, Inc. is an industry leader in the distribution of pipe, valves, fittings and many other related products and services across the Mid-Atlantic Region. Founded in 1963 on providing its customers with "sudden service", Deacon Industrial has since developed the market's most experienced personnel, largest inventory and greatest service offering. We are able to provide our customers with even more timely service and value-added capabilities with our 150,000 square foot state-of-the-art distribution facility located in Harleysville, PA, and our newest Branch located in Camp Hill, PA. Deacon Industrial is committed to providing our customers with the best value in the industry. We invite you to experience the Deacon Difference!
